EXPLANATION:

The independent network was set up to cater for the massive surge of small labels in the latter '70s. An essential aspect of this has been the provision of local, personalised service to shops. In an effort to improve this service we have compiled this catalogue. It is your introduction to **'THE CARTEL'** an association of regional wholesalers and distributors of new and independent music (as well as fanzines)

Anything that we have distributed in the past but is not listed here should be considered deleted. Unfortunately it is only possible to list the items that the Cartel distributes and not all the labels and records that we stock for wholesale. From time to time some of these items may be temporarily out of stock, but we will advise you as to future availability Hence we have started a (monthly) trade magazine **'THE CATALOGUE'**.

The first issue includes a list of all the wholesaled labels. Thereafter, the magazine will serve as a monthly supplement to the main catalogue, including every new release that we distribute or wholesale, as well as any future deletions.
